Revit® 2012 – Recommended Practices

This class is designed to be one day and focuses on some best practices of using Revit MEP. Students should be comfortable with the fundamentals of Revit as taught in the Revit MEP 2012 Fundamentals course. Knowledge of basic techniques is assumed, such as placing equipment, creating systems, scheduling, etc.

Learning Objective

The objective of the Revit MEP 2012 Recommended Practices class is to enable students who have a basic knowledge of Revit to understand some principles and practices that enable Revit MEP to function better for the user.

Course Outline

- Computer System**
