## **HTML 4.01: WEB AUTHORING, LEVEL 1**

**Course Description:** If you have surfed the Internet, you undoubtedly have an idea of what Web pages are and have seen some of their capabilities and limitations. However, merely using the World Wide Web will not give you an understanding of how these pages are created. HTML 4.01: Web Authoring, Level 1 is the first of three courses on the topic of creating Web pages with Hypertext Markup Language (HTML). This course presents the basics of this foundational Web technology and enables you to create your own functional pages.

**Course Objective:** You will create, modify, and test Web pages.

### **Course Content**

#### **Lesson 1: Creating a Web Page**

- Topic 1A: Create a Global Structure
- Topic 1B: Add a Page Title
- Topic 1C: Modify the Page Background
- Topic 1D: Create Paragraphs
